

Dr. Noble & Associates

Fees and Services

Princeton Montessori School is supported by Dr. Noble & Associates for student services related to screenings, assessments, and individual education and behavior services. Our parent community receives a discounted price on full psychoeducational evaluations, with no additional fees charged by the school.

Description and Cost of Services

► **Student Screening** – A student screening guides support services for your child. The process involves a member of Dr. Noble's team speaking with your child's teacher, reviewing academic records, and possibly observing your child in the classroom. Your child's conference teacher will reach out if it is the right next step for your child.

Cost – The cost of this screening will be covered by Princeton Montessori School. Any additional supports or testing will be the parents' responsibility.

► **Functional Behavior Assessment (FBA)** – This assessment focuses on your child's behaviors and the understanding and management of these behaviors. It includes multiple observations and a full written report sharing the observations by category and an action plan for addressing the concerns. This is for students of any age.

Cost – \$2,500 - The cost of this service is the responsibility of the parents.

► **Developmental Evaluation** – A comprehensive, multidisciplinary assessment for students ages 2 - 5. The process involves onsite evaluations by a speech & language pathologist, pediatric occupational therapist, and school psychologist on campus.

- The purpose of this multidisciplinary assessment is to identify the unique strengths and needs of your child and the identification of services appropriate to meet those needs.
- The procedures for evaluating a student include the following: administering assessment instruments by a qualified professional, taking your child's history (including interviewing parents), identifying your child's level of functioning in each of the developmental areas, and gathering information from other sources (other caregivers, medical providers, social workers, and educators) if necessary to understand the full scope of your child's unique strengths and needs.
- The outcome is a comprehensive report detailing the results, recommendations, and next steps for the family.

Cost – \$5,000 - The cost of this service is the responsibility of the parents.

► **Psychoeducational Evaluation** - An Academic/Psychoeducational Evaluation for students ages 6 +.

- The process involves a psychologist talking with school administration, reviewing the student's academic records, and observing the student during class; Parent interviews (in person or by phone); Consultation with teachers and other staff as needed; and two to three testing sessions (roughly 3-4 hours each).

- The outcome is a comprehensive report detailing the results, recommendations, and next steps for the family. Information is presented during a formal feedback session with parents and teachers to discuss a plan based on the findings.

Cost - \$3,800 - The cost of this service is the responsibility of the parents.

► **Re-Evaluation** - For any student who was previously evaluated or any student receiving any type of support services. The process includes a psychologist reviewing records (past and present), observation(s) of the student if necessary, and updated achievement testing in targeted areas to look at growth. At the conclusion of this process, a report is written highlighting areas of growth and/or continued areas of need and recommendations for ongoing support.

Cost - \$2,000 - The cost of this service is the responsibility of the parents.

► **ADHD Evaluation** - A targeted evaluation for students ages 6+ when concerns are primarily related to attention, executive functioning, and/or symptoms associated with ADHD.

- The process includes parent developmental input, teacher input, classroom observation, student interview, and standardized rating scales completed by parents, teachers, and the student when appropriate. Targeted cognitive subtests are also administered to assess working memory and processing speed.
- At the conclusion of the evaluation, a report is written summarizing findings, diagnostic impressions when appropriate, and recommendations for school and home. Results are reviewed with parents during a feedback session.

Cost - \$1,800 - The cost of this service is the responsibility of the parents.

► **Autism Evaluation** – For students ages 4+ with preschool or school experience.

- The evaluation includes a comprehensive cognitive assessment, administration of the ADOS-2 and autism-specific rating scales, review of developmental history, parent and teacher input, and observation across relevant settings.
- The outcome is a comprehensive report detailing evaluation results, diagnostic impressions, recommendations, and next steps. Findings are reviewed with parents during a formal feedback session.

Cost - Fees vary based on the student's individual needs and the scope of the evaluation. Please contact our office for pricing information.

** For FBA, developmental evaluations, and psychoeducational evaluations, there are additional consent forms on the school's website that parents must review and sign. Dr. Noble will provide and require Privacy / HIPPA form, a payment form, consent to the evaluation form, and a communication form.*
